

New Visions

Teen Substance Use Treatment That Works
—With Support for the Whole Family

*Supporting youth to grow, heal, and reconnect—
at home, in school, and in the community.*

New Visions is a FREE, evidence-based substance use treatment program for teens 18 and under. Services are delivered in community-based settings—whether at home, school, or another convenient location—meeting youth where they are. Each teen is supported by an A-CRA Clinician and a dedicated Family Support Partner, who work together with the teen and their family to develop personalized wellness plans, build essential skills, and connect them with helpful resources.

What We Help Teens Achieve

- ▶ Build healthy coping strategies and improve mood
- ▶ Promote positive peer and community connections
- ▶ Strengthen communication and family connections
- ▶ Reduce risky behavior and legal involvement
- ▶ Improve school attendance and academic success

Let's build a better path forward—together.
