

Let's Partner Together to Close Gaps in Care!

The Up Center is committed to partnering with the community to expand access to care. We'd love to explore how we can ally—whether that's providing outpatient therapy at your site, helping design or lead a therapeutic group, or offering staff training.

Let us know how we can partner with you!

How We Can Collaborate

- Bring outpatient counseling to your location or the community
- Facilitate groups such as coping skills, social skills, DBT skills, and substance use support
- Offer staff trainings in specialty areas such as trauma-informed care, eating disorders, substance use, and maternal mental health
- Support your team through advocacy and partnership

Why Partner with Us

Expand Access to Treatment

How can The Up Center develop a partnership to support clients in your setting or in the community?

Strengthen Care

Building partnerships strengthens care by providing more access to services in one location.

Our Clinicians

Our clinicians are trained to provide trauma-informed, culturally responsive care. They receive intensive supervision and ongoing support across all practice settings.
